### Holiday Collection Schedule

Collection is delayed by one day for customers whose service day falls on or after the following holidays when they occur on a weekday:

- Memorial Day
- Thanksgiving Day
- July 4th
- Christmas Day
- Labor Day
- New Year's Day

The Lake County Transfer Station & Recycling Center will also be closed on these holidays. For a complete description of the holiday schedule, visit us at [www.candswaste.com](http://www.candswaste.com).

## Keep your Recycling

# EMPTY, CLEAN AND DRY

Recycling correctly is a great way for you to save money, but only if the recycling cart is filled solely with **empty, clean and dry** items for recycling. Dirty recycling increases our processing and disposal expenses. Recycling correctly helps us keep our costs lower, which means we can keep our rates lower too!

For example, in order for recycled paper to be useful, it must be kept dry and clean; and to do that, the containers we place in the blue recycling carts must also be **empty, clean and dry** or they can leak or drip onto other materials in the cart.

The recycled materials our drivers collect at your home or business are run over a sort line, and our workers hand sort the different container types before they are baled and sent to market. **Empty, clean and dry** recycling helps keep our workers happy and safe!

So, let's take another look at recycling. **Empty, clean and dry** is good for you and good for the environment. Best of all, it is easy!

Please take another look at the recycling guide on the other side of this flyer. Please feel free to call or email us any time if you have questions or need help knowing where to discard or recycle any item. And remember: **Empty, clean and dry!**

\* Please call 707-234-6400 for recycling opportunities in your area

- Recyclables must fit inside cart and lid must close.
- Recycling and garbage collection are on the same day.
- Cart must be within 3 feet of the street to be serviced.
- Material should be loose in the cart, not in plastic bags (except for shredded paper).

Be aware that human hands and valuable equipment sort these materials. Keep your recycling free of contamination by placing only clean recyclables in the blue cart. Contamination and overfill fees may be applied.
